

## PERFORMANCE PLUS TOP STOCK NATURAL

"TOP STOCK NATURAL" is an "Organic Based Liquid" stock supplement specifically blended from a kelp and molasses base and designed to fire up the animals digestive system. We use a deep sea Kelp because it is the richest natural source of amino acids which when combined with molasses provides a complex range of trace elements, minerals and essential vitamins. The combination of these provides a balanced diet of nutrients.

### FEATURES AS FOUND IN THE KELP AND MOLASSES BASE

Vitamins B1 and B2 which aid the animals metabolism in coping with sudden changes associated with the feeding of hay, silage, grains or green feeds.

Vitamin C to enhance the immune system.

Vitamin E for reproduction.

The seaweed base is also the richest natural source of a wide range of Amino Acids normally present at low levels in the gut, vital for food breakdown and deficient during periods of stress.

Contains a complex range of trace elements essential for maximum production

### THE USE OF MOLASSES AND LIQUID KELP AS A STOCK SUPPLEMENT HAS BEEN SHOWN TO HAVE A BENEFICIAL AFFECT IN THE FOLLOWING

Better feed conversion.

Increased wool or mohair production.

Better Calf, lamb fattening and weaning weights.

High conception rates.

Enhanced velvet production.

### TOPSTOCK IS A MULTIPURPOSE PRODUCT THAT HAS A FINANCIAL PAYBACK

Helps relieve stress in livestock

Has been shown to be beneficial in the prevention and treatment of rye grass staggers
