TOP STOCK NATURAL FOR CALVES**

'TOP STOCK NATURAL FOR CALVES' is an 'Organic Liquid Stock Supplement' specifically blended for calves. We use deep sea kelp because it is the richest natural source of amino acids, and which when combined with molasses provides a complex range of trace elements, minerals and vitamins which are essential to sustain good healthy growth in the calves.

To this kelp and molasses base we add extra vitamins, minerals, metabolics, amino acids, the very things required to help fire up the animals system, to ensure that they proceed to grow with strength and vigour.

The combination of all of these provides a good balanced diet of nutrients at the very time that they are needed.

FEATURES FOUND IN THE KELP AND MOLASSES BASE

Vitamins B1 and B2 which aid the animal's metabolism in coping with sudden changes associated with the feeding of pellets, mash, grains or green feeds. Vitamin D to enhance the immune system.

The seaweed base is also the richest natural source of a wide range of Amino Acids normally present at low levels in the gut. Vital for food breakdown but deficient during periods of stress. Kelp contains a complex range of trace elements essential for maximum production.

THE USE OF MOLASSES AND LIQUID KELP AS A STOCK SUPPLEMENT HAS BEEN SHOWN TO HAVE A BENEFICIAL EFFECT IN THE FOLLOWING:

Has been shown to be beneficial in the prevention and treatment of rye grass staggers. Better calf fattening and weaning weights. Helps relieve stress in livestock. Better feed conversion.

FOR ANIMAL TREATMENT ONLY

PERFORMANCE PLUS TOP STOCK NATURAL FOR CALVES

For use as a nutrient supplement for animal's.

CONTAINS: Per 100mls

Molasses 22.0g – Liquid Seaweed Extract (Kelp) 22.0g – Trace elements.

ADMINISTER BY DRENCH GUN OR ADDITION TO FEED OR WATER OR MILK

STOCK TYPE	SUGGESTED DOSAGE	METHOD
Dairy Calves	2ml daily in milk Post weaning – 15ml weekly	Orally or on feed
Feedlots/Dry Feed	15ml weekly or when worm drenching	Added to milk or Water or in Trough

PERFORMANCE PLUS TOP STOCK NATURAL ALSO CONTAINS

(Derived from the Kelp and Molasses Base)
