

**PERFORMANCE PLUS
TOP STOCK NATURAL FOR DEER**

'TOP STOCK NATURAL FOR DEER' is an 'Organic Based Liquid' stock supplement specifically blended from a kelp and molasses base and designed to fire up the animal's digestive system. We use a deep sea Kelp because it is the richest natural source of amino acids, which when combined with molasses provides a complex range of trace elements, minerals and essential vitamins. The combination of these provide a balanced diet of nutrients.

To this we have added extra copper sulphate at a ratio that allows that every 100mls of Top Stock Natural for deer contains not less than 5gm elemental copper.

APPLICATION: Orally
On feed
In trough

KEY FEATURES	BENEFITS
<ul style="list-style-type: none"> • Contains additional Copper • Vitamins B1 and B2 • Vitamin D for the immune system • Vitamin E for reproduction • Rich in amino acids • Readily mixes with all drenches 	<ul style="list-style-type: none"> • Better feed conversion • Healthier stock • Enhanced velvet production • Higher conception rates
